

The Tenderloin

EXPLORE!

The Tenderloin got its name because police once bragged that the price of bribes afforded them the highest grade of beef.

The neighborhood played a huge role in San Francisco's golden age of vice, with gambling dens, speakeasies, bordellos, and a historic sex worker protest of 1917.

At legendary venue Blackhawk Jazz Club, greats like Miles Davis, Billie Holiday, Charlie Parker, Dave Brubeck, and Thelonious Monk played and recorded.

The Tenderloin is a historic and ongoing center of LGBTQ activism, including the 1966 Compton Cafeteria Riot, the first recorded militant uprising by the queer community against police harassment in US history.

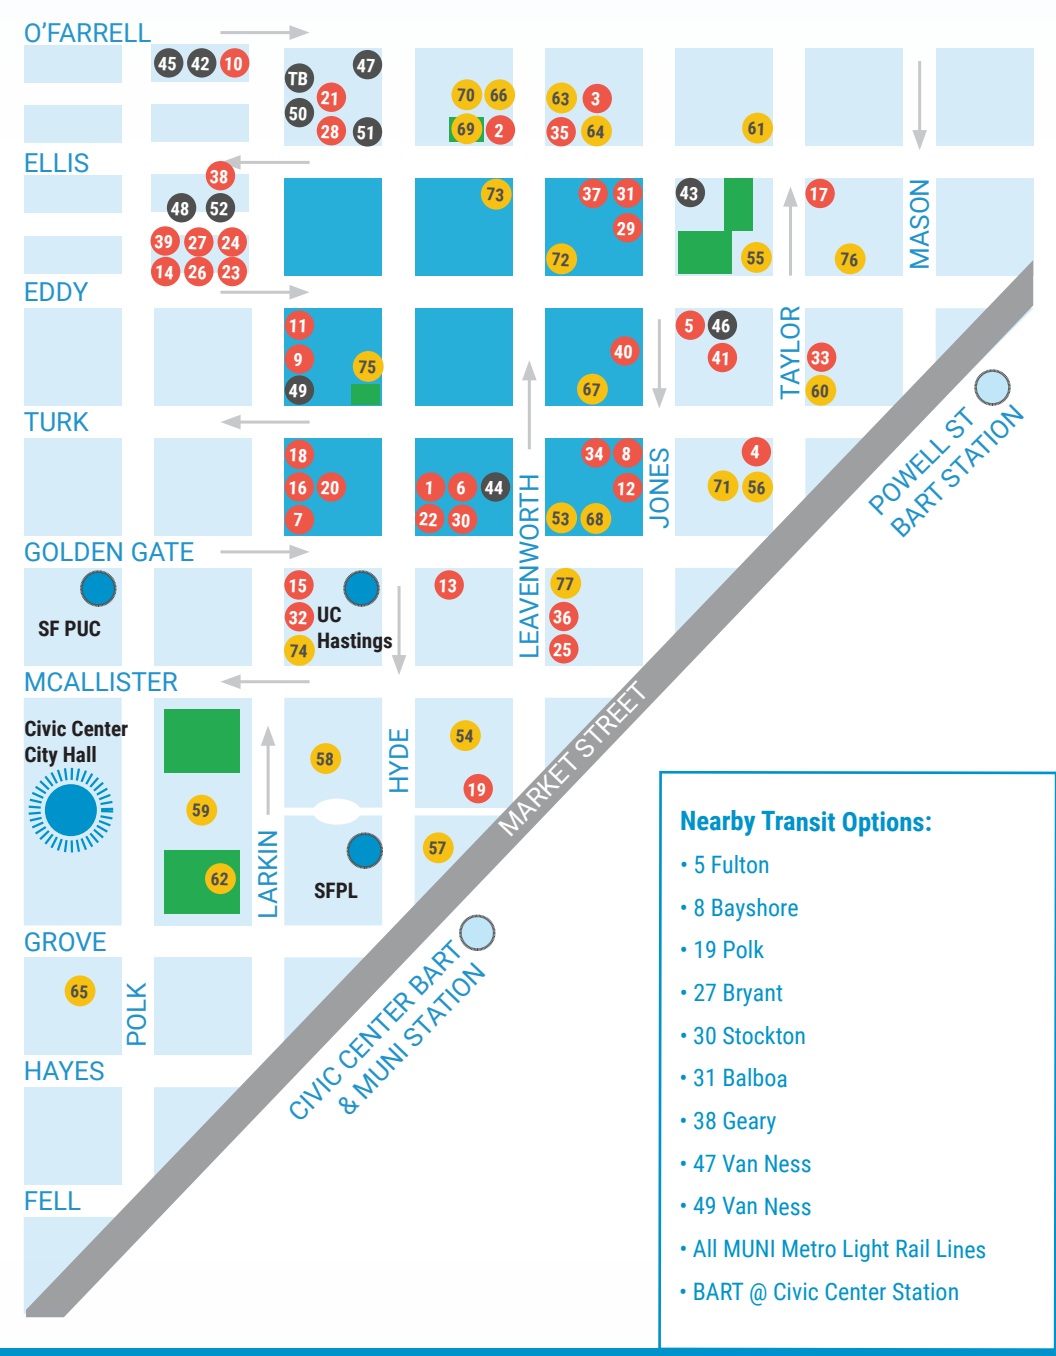

At recording studio Wally Heider Studios, the Grateful Dead, Creedence Clearwater Revival, and Crosby, Stills, Nash & Young crafted albums that changed music forever.

LOVEY HOODS

The 31 blocks of the Tenderloin district are a diverse mix of immigrants, free thinkers, artists and activists, and also boast a farmers' market, healthy corner stores, one of the highest percentages of school-aged children in the city, a thriving Theater District with the recently restored Curran Theater and new CounterPulse space, and the world's first Trans Cultural District. It's also where you'll find shopping, art and dining treasures, especially along Larkin Street in Little Saigon.

A microcosm of grit and glory, the Tenderloin was and is the story of a neighborhood that has persisted against all odds. From independent working women at the turn of the 20th century, to the LGBTQ community of the 60's and the SRO tenants and activists of today, the Tenderloin embodies the beating heart of San Francisco.
