LIVABILITY SUMMIT & AWARDS BRUNCH

Take city planning out of City Hall and into the streets with the 2019 Livability Summit! Enjoy thought-provoking discussions with a diverse panel of women on the intersections between transit, public health and equity in San Francisco.

WHERE: The Chapel @ 777 Valencia St

WHEN: Public Program Begins at 12:15 pm

SCHEDULE

12:15 - 1PM // DREAMING BIG - WHAT DOES SHARED MOBILITY LOOK LIKE?

As bike, scooter and car shares transform our streets, reshape our commutes and alter the transportation landscape of San Francisco, how do we center access for marginalized communities, encourage sustainable modes of transit, and create a system that is equity-first?

With Planning Commissioner Myrna Melgar, SF Bicycle Coalition Board Member and JUMP's Meaghan Mitchell, and SOMCAN's Mary Claire Amable. Moderated by Fay Darmawi of San Francisco Urban Film Festival

1:15 - 2:00PM // COMMUNITY LEADERS IN ACTION - 2019 LIVABILITY AWARDEES

It takes a village to create a livable city. Learn how these community leaders and organizations work across a diverse landscape to create changes that affect the way we travel, live and play in the city we call home.

With In Chan Kaajal Community Garden, People Protected Bike Lanes Mission Housing's 18th Street ADU Garage Conversion Project

2:15 - 3:00PM // AT THE INTERSECTION OF TRANSIT & PUBLIC HEALTH

From wait times to walkable sidewalks to air quality, how we get around our city is deeply entwined with the health of our residents. Studies have shown access to quality public transportation results in better health outcomes - but how do we get there?

Keynote Conversation with SFMTA Vice Chair Gwyneth Borden and Dr. Susan Zieff, Director of Active Living Across the Lifespan Research Group
